Asunto: RESPUESTA A REQUERIMIENTO - OFICIO No. 2087 - RADICADO No. 2020-00215

Respetado Doctor,

De manera atenta, y en atención al requerimiento del oficio del asunto en el cual solicita a este Ministerio

"(...) se sirvan complementar la respuesta al punto 5 del derecho de petición formulado por CARACOL TELEVISIÓN, en forma puntual, conforme a lo requerido por este despacho y por la llamada en garantía Zurich Colombia Seguros S.A. (...)"

amablemente, me permito dar respuesta a su petición transcribiendo la respuesta enviada por el Grupo de Convalidaciones de esta cartera ministerial:

En aras de complementar la respuesta al punto 5 del aludido derecho de petición, es menester conocer el contenido del aludido punto 5, y lo que en su momento se contestó, como pasa a verse:

> *"5. Sírvase informar la validez que tienen en Colombia los certificados de estudios médicos en cirugía plástica en la Universidad Veiga de Almeida en Brasil.*
>
> *En respuesta a su interrogante, se indica que el proceso de convalidación implica la realización de una revisión integral de legalidad y académica de los estudios, es por ello que, de manera a priori no se puede determinar qué títulos de educación superior extranjeros son convalidables o no, sin realizar el examen de legalidad y académico antes mencionado."*

Se reitera la respuesta dada al indicar que el proceso de convalidación implica la realización de una revisión integral de legalidad y académica de los estudios, es por ello que, de manera a priori no se puede determinar qué títulos de educación superior extranjeros son convalidables o no, sin realizar el examen de legalidad y académico antes mencionado.
Ahora bien, debe tenerse en cuenta que el trámite de convalidación de títulos de programas en el área de la salud, como es el caso del que ostenta el recurrente, implica un examen de legalidad del título sometido a convalidación y un examen académico de los estudios cursados. Por ende, a través del primero se evalúan aspectos tales como (i) Naturaleza jurídica de la Institución de Educación Superior que otorga el título, y (ii) Naturaleza jurídica del título otorgado. En este punto se verifica que el programa cursado conlleve a la obtención de un expuesto, se tiene que la institución que otorgó el título sometido a consideración título de educación superior que sea reconocido por las autoridades encargadas de la educación superior en el país de origen de la Institución de Educación Superior y a su vez, que el título sea otorgado por una Institución de Educación Superior reconocida por la autoridad competente en el respectivo país de origen.
De ahí que el Ministerio deba realizar un estudio minucioso destinado a precisar la naturaleza de la institución que está otorgando el título y del título mismo, pues si no se estableciera previamente esta situación, se podría incurrir en el error de realizar la convalidación sobre certificados (diferentes a títulos de educación superior), otorgados por cualquier persona jurídica, aun cuando no estén debidamente autorizadas, reconocidas o conformadas como instituciones de educación superior por la autoridad competente en el país de origen.

De igual manera, es importante recalcar que el trámite de convalidación de acuerdo a lo esgrimido por el Consejo de Estado: *"alude al procedimiento administrativo mediante el cual el Ministerio de Educación Nacional, luego de efectuar los análisis y valoraciones pertinentes, procede a reconocer validez a un título de educación con el propósito de que el mismo pueda acreditar que su titular es poseedor de los conocimientos inherentes a los estudios realizados"**[1]**, cuyo resultado final determina si hay equivalencia o similitud con los programas que en paridad de condiciones son ofertados en Colombia.

Ahora bien, de acuerdo con la jurisprudencia colombiana:

> *"[…] la finalidad y razón de ser de la convalidación de títulos académicos conferidos en el exterior es la protección del interés general y de los derechos de las personas. Por un lado, el Estado colombiano tiene la facultad y el deber de inspeccionar y vigilar las profesiones y ocupaciones que impliquen un riesgo social, con el objeto de proteger a la sociedad en su conjunto. Por este motivo, puede exigir títulos de idoneidad para el ejercicio de esas actividades, así como controlar e investigar las instituciones y programas académicos que los confieren. Sin embargo, en la medida en que no le es posible ejercer esta vigilancia directa en el extranjero, se reserva el derecho de aceptar y reconocer los títulos otorgados por instituciones ubicadas en el exterior.*
>
> *Por otro lado, la convalidación tiene por objeto establecer la equivalencia en las condiciones de los programas académicos impartidos en Colombia y en el extranjero. En la medida en que para el otorgamiento de los títulos nacionales el Estado colombiano ha fijado ciertos requisitos encaminados a garantizar la idoneidad de quienes ejercen actividades que implican riesgo social, quienes pretendan hacer valer títulos foráneos deben acreditar que las condiciones para su obtención son similares o equivalentes a las nacionales."* ***[2]***

En torno a la revisión de autenticidad de los documentos aportados y basados en el procedimiento de convalidación, debe precisarse que escapa del ámbito de competencia funcional de los servidores vinculados al proceso de convalidación, revisar o indagar sobre la autenticidad de los documentos soporte allegados por los ciudadanos, pues conforme a las disposiciones contenidas en el artículo 252 y 259 del Código de Procedimiento Civil1 vigente para la época de radicación, los documentos se debían presumir auténticos cuando existía certeza de la persona que lo ha elaborado, manuscrito o firmado, mientras no se comprobara la contrario mediante tacha de falsedad, adicionalmente por tratarse de documentos otorgados en el extranjero, fueron presentados debidamente autenticados por el Cónsul o agente Diplomático colombiano y la respectiva apostilla, lo cual hacia presumir que se otorgaron conforme a la ley del respectivo país, sin que existieran elementos de juicio suficientes para deducir lo contrario.

En este mismo sentido, el Decreto 019 de 2012 respaldaba la presunción de autenticidad de los documentos aportados a la solicitud de

Calle 43 No. 57 - 14 Centro Administrativo Nacional, CAN, Bogotá, D.C.

convalidación, tuvieren o no como como destino servir de prueba en actuaciones administrativas, mientras no se comprobara lo contrario mediante tacha de falsedad, incidente que escapaba igualmente de las competencias atribuidas al Ministerio o sus servidores por estar expresamente reservadas a la rama judicial

En este orden de ideas, y atendiendo a lo señalado por la H. Corte Constitucional el principio de buena fe es "(…) *aquel que exige a los particulares y a las autoridades públicas ajustar sus comportamientos a una conducta honesta, leal y conforme con las actuaciones que podrían esperarse de una "persona correcta (vir bonus)". Así la buena fe presupone la existencia de relaciones reciprocas con trascendencia jurídica, y se refiere a la "confianza, seguridad y credibilidad que otorga la palabra dada2"*, razón por la cual, la documentación presentada para la solicitud de convalidación del señor Vanegas se presume auténticos.

Así las cosas, y como ya se anotó, no le corresponde al Ministerio de Educación Nacional versar sobre la autenticidad de los documentos aportados por el convalidante, en aplicación al artículo 252 y 259 del Código de Procedimiento Civil, vigente para la fecha del proceso, para ello se debe acudir a la jurisdicción ordinaria mediante el proceso o incidente de tacha de falsedad, o mediante un proceso penal por el delito de falsedad en documento público o privado, según sea el caso.

Finalmente, se estima enunciar que cada uno de los requerimientos hechos en sus comunicaciones fueron contestadas de fondo en los oficios emanados por el Ministerio de Educación Nacional.

convalidación, tuvieren o no como como destino servir de prueba en actuaciones administrativas, mientras no se comprobara lo contrario mediante tacha de falsedad, incidente que escapaba igualmente de las competencias atribuidas al Ministerio o sus servidores por estar expresamente reservadas a la rama judicial

En este orden de ideas, y atendiendo a lo señalado por la H. Corte Constitucional el principio de buena fe es "(…) *aquel que exige a los particulares y a las autoridades públicas ajustar sus comportamientos a una conducta honesta, leal y conforme con las actuaciones que podrían esperarse de una "persona correcta (vir bonus)". Así la buena fe presupone la existencia de relaciones reciprocas con trascendencia jurídica, y se refiere a la "confianza, seguridad y credibilidad que otorga la palabra dada2"*, razón por la cual, la documentación presentada para la solicitud de convalidación del señor Vanegas se presume auténticos.

Así las cosas, y como ya se anotó, no le corresponde al Ministerio de Educación Nacional versar sobre la autenticidad de los documentos aportados por el convalidante, en aplicación al artículo 252 y 259 del Código de Procedimiento Civil, vigente para la fecha del proceso, para ello se debe acudir a la jurisdicción ordinaria mediante el proceso o incidente de tacha de falsedad, o mediante un proceso penal por el delito de falsedad en documento público o privado, según sea el caso.

Finalmente, se estima enunciar que cada uno de los requerimientos hechos en sus comunicaciones fueron contestadas de fondo en los oficios emanados por el Ministerio de Educación Nacional.
