En silencio.

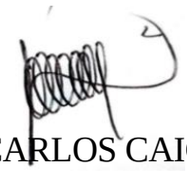
Asimismo, se le informa que el término del que disponían las partes para pronunciarse sobre el recurso de reposición interpuesto por el apoderado de la parte actora en contra del auto del 11 de noviembre de 2022, corrió los días 30 de noviembre, 1 y 2 de diciembre de 2022. Dentro de la oportunidad procesal, allegaron escritos.

Por último, se deja en el sentido de informar que no corrieron términos los días 20 de diciembre de 2022 al 10 de enero de 2023 inclusive, por vacancia judicial. Tampoco, los días 16, 17 y 18 de enero de 2023, por cierre extraordinario del Juzgado, conforme la autorización dada por el Consejo Seccional de la Judicatura de Risaralda, mediante Acuerdo No. CSJRIA23-17 del 13 de enero de 2023.



JUAN CARLOS CAICEDO DIAZ
Secretario

JUZGADO PRIMERO CIVIL DEL CIRCUITO
Pereira, Risaralda, veinticuatro (24) de enero de dos mil veintitrés (2023).

Se procede a resolver las diferentes solicitudes, que obran en el expediente de la siguiente manera:

I). **Recurso de reposición Zurich Colombia Seguros S.A.**

Se resuelve el recurso de reposición presentado por la llamada en garantía Zurich Colombia Seguros S.A. en contra del auto del 31 de octubre de 2022, por medio del cual se resolvió en el numeral seis (6) de la parte resolutiva no dar trámite a la oposición presentada por esta, respecto de las pólizas allegadas por el accionante.

1.1. FUNDAMENTOS DEL RECURSO

En resumen, el motivo de inconformidad del recurrente, se basa en que la providencia cuestionada no esclarece, la procedencia y oportunidad de los documentos (póliza de seguro) aportadas por el extremo demandante, lo cual contraviene expresamente las normas procedimentales que rigen la incorporación y oportunidades para adelantar el decreto y practica de pruebas (arts. 164, 168, 169 y 170 del C.G.P).

Refiere que la decisión adoptada lleva implícita el aval a la incorporación de un medio de prueba, que fueron aportadas por el extremo demandante luego de haber operado la preclusión de las oportunidades con que contaba para allegar pruebas y luego de haber fenecido la oportunidad para introducir correcciones o reformas a la demanda (art. 93 del C.G.P).

Sostiene que la decisión judicial objeto de reparo debió ordenar el rechazo de plano de la prueba documental (pólizas de seguros) aportada por la parte demandante, por cuanto considera que sólo las pruebas aportadas en su oportunidad han de guiar el desarrollo armónico del proceso, procurando de esta forma, la salvaguarda de las garantías del debido proceso, derecho de defensa, contradicción y lealtad procesal.

Aduce que la decisión adoptada se encontraría inmersa en una vía de hecho por "defecto procedimental absoluto" y vulnerar las garantías fundamentales de ZURICH, como quiera que la resolución judicial impugnada -no solo impidió a ZURICH oponerse a la incorporación de una probanza en tales condiciones -sino que, implícitamente, habilita a la parte actora para actuar por fuera del procedimiento establecido, en desconocimiento del carácter obligatorio y de orden público de las normas procesales.

Solicita reponer para revocar el numeral 6º del auto de fecha 31 de octubre de 2022 y, en consecuencia "rechazar de plano" la incorporación de los documentos aportados por el apoderado de los accionados el pasado 14 de octubre de 2022 consistentes en los anexos de la póliza de vida grupo "anexo para complicaciones de cirugía plástica con fines estéticos".

Asimismo, rechazar y, en consecuencia, no valorar los referidos documentos ni otorgarles eficacia probatoria.

1.2. CONSIDERACIONES

Iniciamos indicando que el recurso de reposición tiene por objeto buscar que el funcionario que profirió una providencia la analice nuevamente para que si es del caso, la reforme total o parcialmente. De este medio está haciendo uso el impugnante para obtener una revisión de la providencia atrás referenciada.

Anticipadamente debe manifestarse que para la prosperidad de un recurso, deben cumplirse una serie de requisitos que aseguren su trámite y decisión, la ausencia de alguno de ellos conlleva a denegar el trámite de la impugnación o iniciado éste, que quede sin efectos la actuación. Estas exigencias son capacidad para interponer el recurso, procedencia, oportunidad de su interposición, sustentación cuando la ley lo exige y cumplimiento de las cargas procesales en cabeza del recurrente.

Aquí se reúnen todos los requisitos enumerados ya que la llamada en garantía es la directamente afectada con la decisión, el recurso procede con base en el art. 318 del C.G.P. y además, fue oportunamente presentado, por lo que procede resolver.

El motivo principal de inconformidad del impugnante es frente a la incorporación de las pólizas de seguro aportadas por los demandantes visibles en el archivo digital 37, puesto que considera que la providencia cuestionada no esclarece, en ninguno de sus apartados, la procedencia u oportunidad de los documentos (pólizas de seguro), lo que contraviene las normas procedimentales que rigen la incorporación y oportunidades para adelantar el decreto y práctica de pruebas.

Con relación a las oportunidades probatorias, dispone el art. 173 del C.G.P.: *"Para que sean apreciadas por el juez las pruebas deberán solicitarse, practicarse e incorporarse al proceso dentro de los términos y oportunidades señalados para ello en este código.*

En la providencia que resuelva sobre las solicitudes de pruebas formuladas por las partes, el juez deberá pronunciarse expresamente sobre la admisión de los documentos y demás pruebas que estas hayan aportado. El juez se abstendrá de ordenar la práctica de las pruebas que, directamente o por medio de derecho de petición, hubiera podido conseguir la parte que las solicite, salvo cuando la petición no hubiese sido atendida, lo que deberá acreditarse sumariamente.

Las pruebas practicadas por comisionado o de común acuerdo por las partes y los informes o documentos solicitados a otras entidades públicas o privadas, que lleguen antes de dictar sentencia, serán tenidas en cuenta para la decisión, previo el cumplimiento de los requisitos legales para su práctica y contradicción.

De la revisión del expediente, se evidencia que el Juzgado no realizó ningún pronunciamiento sobre la admisión de los documentos (pólizas) aportados como pruebas; por cuanto la parte actora solicitó que el escrito denominado "complemento de respuesta" no fuera tenido en cuenta y excluido del expediente digital, con el fin de contribuir a la celeridad del proceso, petición a la que se accedió en el numeral nueve de la parte resolutiva, de la providencia recurrida.

En virtud de lo anterior, se tiene que no le asiste razón a la llamada en garantía; toda vez que las pólizas de responsabilidad civil extracontractual otorgadas por Zurich a la doctora Oriana Morales Cardona que fueron allegadas por el demandante en escrito visible en el archivo digital 37, no fueron incorporadas al expediente como prueba documental, puesto que desistieron de las mismas; razón por la cual el despacho no realizó ningún pronunciamiento.

Conforme lo anterior, sin lugar a mayores elucubraciones no se repondrá el auto recurrido como se dirá en la parte resolutiva de esta providencia.

II). **Solicitud demandados sociedad Caracol T.V. y otro**

En escrito visible en el archivo digital 51 el apoderado de los demandados solicita al despacho rechazar de plano los documentos que pretende allegar el apoderado de la parte demandante como supuesta contradicción a las respuestas de los Ministerios de Educación y Salud.

No se accederá a lo peticionado por la parte demandada, por cuanto el Despacho ya resolvió al respecto, mediante providencia que data del 11 de noviembre de 2022.

III). **Respuesta Invima**

Déjese en conocimiento de las partes, la respuesta al oficio 2099 del 11 de noviembre de 2022, emitida por el Instituto Nacional de Vigilancia de Medicamentos y Alimentos -INVIMA-, para los fines legales que estimen pertinentes.

IV. **Recurso de reposición demandante**

Se resuelve el recurso de reposición presentado por el apoderado judicial de la parte demandante en contra del auto del 11 de noviembre de 2022, por medio del cual se resolvió no valorar como pruebas los documentos anexos, ni se accedió a dar traslado a la noticia criminal que obra en el pdf 34.

4.1. FUNDAMENTOS DEL RECURSO

En resumen, los motivos de inconformidad del apoderado de la parte actora, son los siguientes:

4.1.1 Se basa en que no pudo tener conocimiento de la noticia criminal remitida por la Fiscalía 63, por cuanto no fue anexado al auto que la dejo en conocimiento (auto 31 de octubre de 2022, archivo digital 41); además, que tampoco le fue posible acceder revisando el expediente electrónico, por cuanto después de vencida la oportunidad procesal para pronunciarse, se le indicó que tenía alguna reserva y que solo podía ser consultado en determinado link; motivo por el cual solicita se reponga el auto y se de traslado al documento mencionado.

4.1.2 Asimismo, presenta recurso de reposición en subsidio de apelación, respecto la negativa del despacho de tener en cuenta las pruebas anexadas para comprobar la prueba oficiosa, decretada por el despacho.

4.2 CONSIDERACIONES

Iniciamos indicando que el recurso de reposición tiene por objeto buscar que el funcionario que profirió una providencia la analice nuevamente para que si es del caso, la reforme total o parcialmente. De este medio está haciendo uso el impugnante para obtener una revisión de la providencia atrás referenciada.

Anticipadamente debe manifestarse que para la prosperidad de un recurso, deben cumplirse una serie de requisitos que aseguren su trámite y decisión, la ausencia de alguno de ellos conlleva a denegar el trámite de la impugnación o iniciado éste, que quede sin efectos la actuación. Estas exigencias son capacidad para interponer el recurso, procedencia, oportunidad de su interposición, sustentación cuando la ley lo exige y cumplimiento de las cargas procesales en cabeza del recurrente.

Aquí se reúnen todos los requisitos enumerados ya que la parte demandante es la directamente afectada con la decisión, el recurso procede con base en el art. 318 del C.G.P. y además, fue oportunamente presentado, por lo que procede resolver.

Frente al primer punto, básicamente lo que pretende el impugnante es que se de acceso a la respuesta remitida por la Fiscalía 63, como quiera que no pudo conocerla, por cuanto no se anexo dicho archivo a la providencia del 31 de octubre de 2022; además, que después de vencida la oportunidad procesal para pronunciarse, se le informó que debía solicitar la contraseña para revisarla en el expediente digital.

Como primer punto, es menester indicar que el art. 29 de la Constitución Política que hace referencia al debido proceso, reconoce y/u otorga a toda persona, el derecho a presentar pruebas y a controvertir las que se alleguen en su contra.

Igualmente, entre los principios generales de la prueba judicial, indicados por la Doctrina Nacional, están: la necesidad de la prueba y la prohibición de aplicación del conocimiento privado del juez sobre los hechos; la unidad; la comunidad; la contradicción; la igualdad de oportunidad; la publicidad; la preclusión; la inmediación y dirección del juez en la producción de la prueba; la originalidad; la concentración; la libertad; la obtención coactiva de los medios materiales de la prueba y la inmaculación.

Frente al principio de contradicción y publicidad, el tratadista Jorge Parra Benítez ha señalado en su libro *"Derecho Procesal Civil"*, segunda edición, pág. 274, lo siguiente*: "Contradicción de la prueba. De la bilateralidad del proceso y el derecho de defensa emerge el postulado de la contradicción de la prueba, que garantiza que todas las partes puedan controvertir los medios de prueba que obran en el proceso. No alude, sin embargo, a una contradicción efectiva sino a la posibilidad de ejercerla, toda vez que si celebrada una audiencia para interrogar testigos, por ejemplo, no asiste a ella el apoderado de una de las partes y por ello no lleva a cabo su defensa, por haber tenido la oportunidad de participar de la diligencia es claro que le fue respetado el derecho"*

"Publicidad. En virtud del principio de publicidad no debe haber pruebas reservadas u ocultas. Como se ve, es la fuente para el ejercicio de la contradicción."

Ahora, de la revisión del expediente digital y del estado electrónico del 01 de noviembre de 2022, se encuentra que ciertamente no se dio acceso a la respuesta de la Fiscalía 63, que se dejo en conocimiento y que por las circunstancias especiales de los expedientes digitales, tampoco pudieron las partes conocer dicho archivo digital, como quiera que la misma se encuentra encriptada por ser un documento con reserva legal a las luces del Código Penal.

En virtud de lo anterior, con el fin de garantizar el principio de publicidad y contradicción de la parte demandada, además de no vulnerarle el derecho al debido proceso; se repondrá parcialmente la providencia del 11 de noviembre de 2022, notificada en el estado electrónico que data del 15-11-2022 y se dejará nuevamente en conocimiento la respuesta de la noticia criminal No. .11001-6000050-2019-35558 (pdf 34), con la advertencia que dentro del término de ejecutoria deberán comunicarse con el despacho, para obtener la contraseña de dicho documento electrónico.

Por otra parte, respecto al punto 4.1.2, se tiene que lo que básicamente pretende el demandante es que se revoque la decisión, aceptando unos documentos anexos que fueron aportados como pruebas, para la contradicción de la prueba oficiosa.

Como primer punto, ha de indicarse respecto a las pruebas de oficio que el art. 170 del C.G.P establece que "*El juez deberá decretar pruebas de oficio, en las oportunidades probatorias del proceso y de los incidentes y antes de fallar, cuando sean necesarias para esclarecer los hechos objeto de la controversia.*

Las pruebas decretadas estarán sujetas a la contradicción de las partes."

Del mismo modo, la doctrina y la jurisprudencia han señalado que la prueba de oficio es facultativa de los jueces, además de un deber legal, en los siguientes casos: "*i) cuando surja en el funcionario la necesidad de esclarecer espacios oscuros de la controversia, ii) cuando la*

ley le marque un claro derrotero a seguir, iii) o cuando existan fundadas razones para considerar que su inactividad puede apartar su decisión del sendero de la justicia material."[1]

Respecto de controvertir la prueba oficiosa, el doctrinante Jorge Parra Benítez, en su libro: *"Derecho procesal civil"* señaló lo siguiente: *"Puntualizó el Código que las partes pueden controvertir la prueba oficiosa, con lo cual se erradicó un vicio de la practica procesal que negaba esa contradicción. Sin embargo, la posibilidad de contradicción, que es más real en materia de testimonios y de pericia, no concierne al ejercicio de facultades que la parte no hubiera realizado en el momento en que se pudo"*

Por otra parte, se tiene que el art. 173 del C.G.P. señala que *"para que sean apreciadas por el Juez las pruebas, deberán solicitarse, practicarse e incorporarse al proceso dentro de los términos y las oportunidades señalados para ello."*

Conforme la norma parcialmente transcrita, se tiene que cuentan las partes con oportunidades precisas para recabar las pruebas, para aportarlas es: 1. Con la demanda, 2. Con la contestación de la demanda, 3. Con el escrito de excepciones previas 4. Frente a excepciones de mérito o previas, 5. Con la contestación de la reconvención, 7. Al contestar la reforma de la demanda de reconvención, 8. Al promover o responder un incidente, 9. Testigos. Pueden aportar documentos relacionados con hechos sobre los cuales declaran. 10. En la practica de una inspección judicial, 11. En el trámite de apelación de sentencias.

De lo anterior, se tiene que los documentos aportados por el extremo demandante fueron presentados cuando ya había operado la preclusión de las oportunidades con que contaba para allegar pruebas, por lo que dicha petición contraviene expresamente las normas procedimentales que rigen la incorporación y oportunidades para adelantar el decreto y practica de pruebas generando una desigualdad procesal y por ello, no se repondrá la decisión proferida mediante auto del 11 de noviembre de 2022, respecto de los documentos que quiere adosar al expediente como "contraprueba".

Por otra parte, teniendo en cuenta que no es susceptible de recurso lo referente a las pruebas de oficio, art. 169 del CGP., no se concederá el recurso de apelación de forma subsidiaria.

V. **Respuesta Fiscalía II Local**

Déjese en conocimiento de las partes, la respuesta al oficio No. 1931, emitida por la Fiscalía 02 Local de la ciudad, para los fines legales que estimen pertinentes (archivo digital 63).

VI. **Respuesta Ministerio de Educación**

Déjese en conocimiento de las partes, la respuesta al oficio No. 2087 del 4 de noviembre de 2022, emitida por el Ministerio de Educación, para los fines legales que estimen pertinentes (archivo digital No. 64 y 65).
